**3D LED animation content
for Marina Bay Sands**

ARISTOCRAT

Preliminary Information.

You are seeking a production partner to deliver immersive, large-scale 3D LED animation content for Marina Bay Sands, integrating Aristocrat's Dragon Link game IP into a first-of-its-kind on-floor experience.

This project will bring cinematic storytelling to the casino floor through fully animated, high-realism visuals spanning column and ceiling LED screens, designed to captivate guests and elevate the Dragon Link brand presence.

Your key objectives are:

Create market-leading immersive LED content

- ✓ Seamlessly integrate Dragon Link characters and themes
- ✓ Deliver realistic, fully animated 3D visuals (not flat 2D)
- ✓ Meet multi-party approval requirements (MBS, AG, GRA)
- ✓ Launch live on the MBS floor by early May

**At Sarani, we aim
to support you**

Introduction.

This presentation objective is to present our offer to Aristocrat x MBS.

It includes:

01

**Who
we are.**

sarani s
!arani

We envision a world where every dream could take form, every brand could tell its story, and every entrepreneur could paint their vision—without the barriers of high costs, turnaround times and rigid processes.

**We want to reshape
the history of
marketing**

**We are
Sarani.**

Happiness guaranteed.

Our way of working.

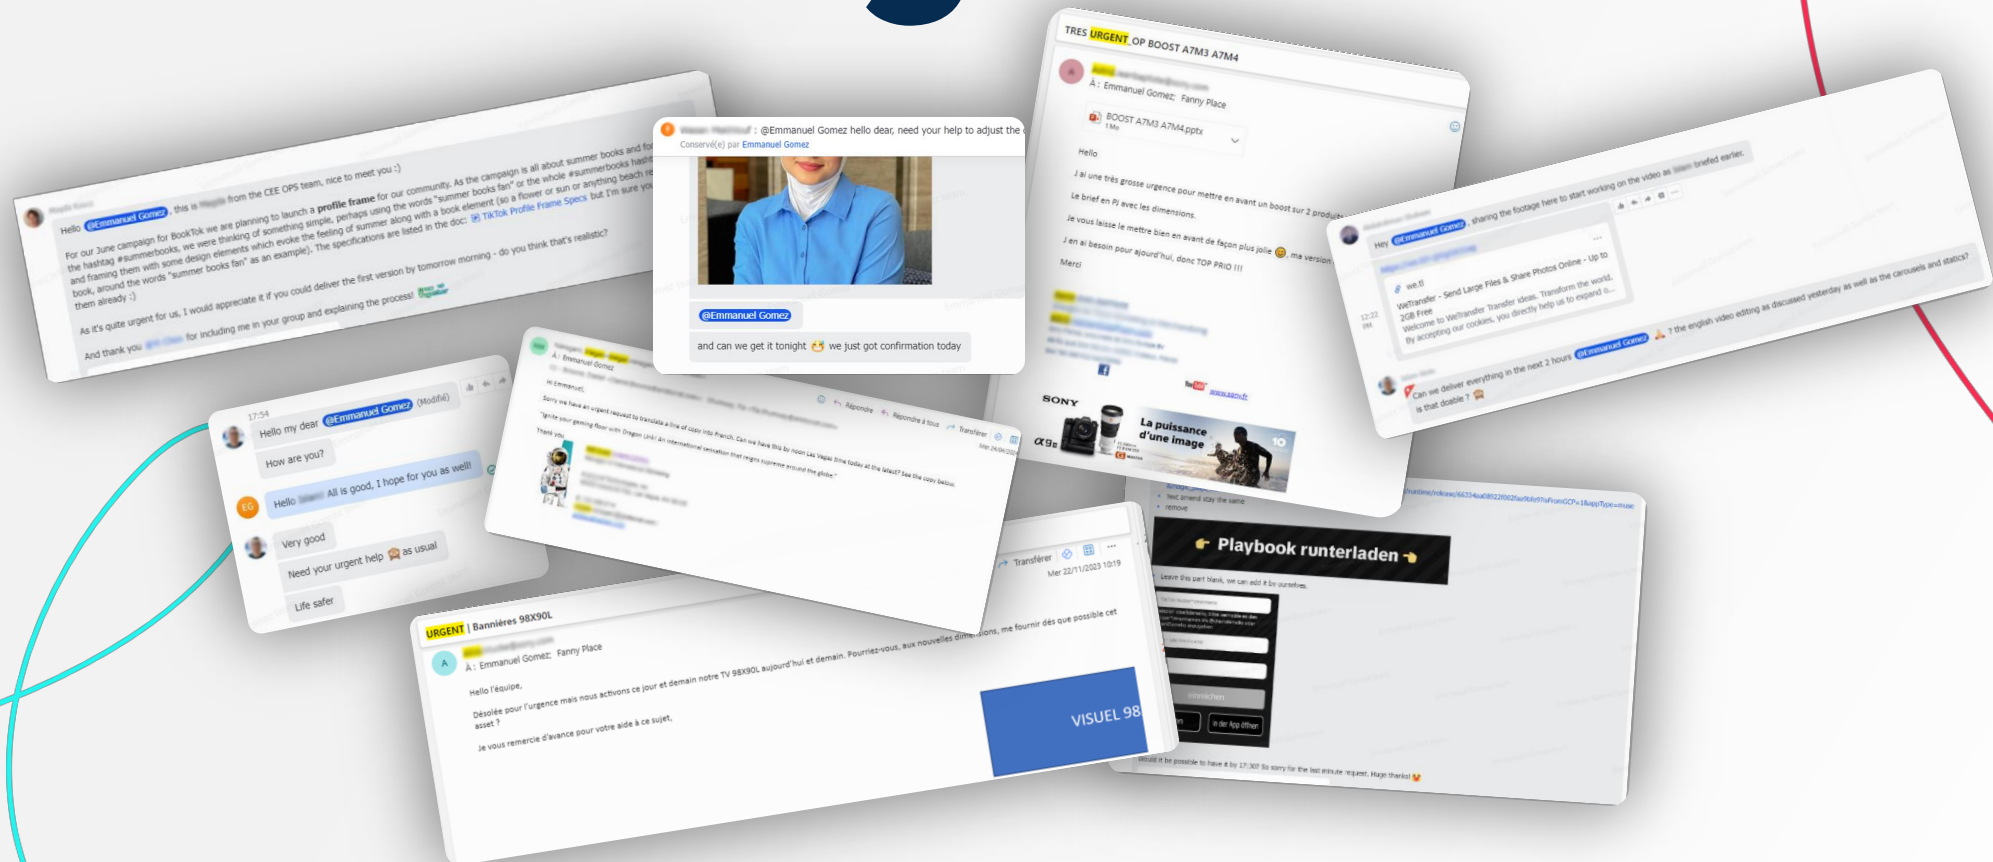

Your communication tool is ours

For an efficient H24 management in back-office

Your challenges are our challenges.

02

**Your
expectations.**

The project requirements.

The animations must be:

Based on preliminary information, You plan to **deliver three (3) fully animated 3D style LED videos**, each designed as a synchronized experience across the column and ceiling screens at Marina Bay Sands.

Fully 3D style and immersive (no flat 2D graphics)

45–60 seconds per storyboard (max. 75 seconds)

Seamless and fully animated throughout

Include individually rendered 3D style characters and environments

Final delivery includes animation with audio, aligned to multi-party approvals (MBS, AG, GRA), and ready for on-floor launch by early May.

Your expectations.

You have 3 expectations:

Creative Capabilities:

A strong ability to translate brand IP into high-impact, realistic 3D style animation, bringing cinematic storytelling to life across large-scale LED environments.

Communication & Way of Working:

Clear, responsive, and transparent collaboration, with proven experience managing multiple stakeholders, approvals, and tight timelines.

Cost efficient:

A commercially sound production approach, with clear pricing, efficient asset reuse, and scalable delivery across multiple environments.

That
we cover

1. Creative Capabilities.

Creativity is our **essence**: We specialize in delivering immersive, large-format 3D style animation designed for real-world environments – not flat screens.

What sets us apart:

- Extensive experience producing high-fidelity, cinematic 3D style content
- Proven ability to build custom characters and environments from scratch
- Strong understanding of brand IP, realism, lighting, and scale
- A production team skilled in creating seamless, looped LED experiences

We don't just animate – we build worlds that feel real.

2. Communication & Ways of Working.

Ultra-reactivity is in our DNA: We offer an **ultra-responsive, always-on way of working**, aligned to your preferred communication channels.

Structured delivery

Clear milestones, version control, and approval checkpoints.

Direct & responsive

Dedicated project lead with fast, transparent communication.

Global-ready

Experienced working across time zones to meet fixed deadlines.

3. Cost efficiency.

Our production approach is designed to maximize quality, control costs, and maintain transparency.

We work to **deliver the best content within your budget.**

All our **prices are transparent** and come with **unlimited revisions**

03

Our
proposal.

Scope of work.

We propose the creation of **three (3) fully animated 3D style LED video experiences**, each designed as a synchronized animation spanning the column and ceiling LED screens at Marina Bay Sands.

Each video will:

- ✓ Run 45–60 seconds (maximum 75 seconds, storyboard-dependent)
- ✓ Be fully animated throughout (no static frames)
- ✓ Feature custom-built 3D style characters and environments
- ✓ Be optimized for large-format LED displays
- ✓ Include sound design and final audio mix
- ✓ Be delivered as seamless looping content

Deliverables.

For each of the three storyboards, we will deliver the following fully completed production outputs:

Environments & Non-Character Assets

- Volcano, underwater, vault, portals, FX, etc.
- Included within video production cost

- Final storyboard refined for GRA submission
- Full 3D animation (column and ceiling synchronized)
- Lighting, FX, rendering, and compositing
- Audio and sound effects
- Final master files for LED playback in the required formats

3D Asset Creation Characters

- 5 individually rendered 3D characters
- Built from scratch based on brand guidelines and references
- Quoted separately due to IP ownership requirements

Ownership & Usage Rights

- Final animation videos: owned by Marina Bay Sands
- Game IP characters: owned by Aristocrat
- Select newly created characters: owned by Aristocrat, reusable with casino partners

Dragon Creation & Animation Options.

Base Character Build (Required) 1
Dragon Character Set (5 Dragons)
\$5,000 (fixed)

Billboard-ready 3D models with premium detailing (eyes, scales, hair, claws), built for reuse across environments.

Delivered as a complete set to ensure visual consistency.

Option A: AI-Assisted Animation 2a

- Limited, predefined motion sets
- Reduced control over movement and expressions
- Suitable for simple or background motion
-

\$1750 (\$350 per dragon)

Option B: Full 3D Character Animation 2b

- Full 3D performance animation
- 360° flight, spins, and articulated movement
- Facial expressions and fine detail control
- Billboard-ready realism

\$6250 (\$1250 per dragon)

Video Production

\$750 per minute of final animation

Includes:

- ✓ Storyboarding
- ✓ Full 3D style animation
- ✓ Sound effects
- ✓ Final delivery files
- ✓ FX & lighting

Estimated duration: 45–60 seconds per video (max 75 seconds)

Pricing.

Clear, transparent pricing aligned to scope and production needs.

	Core Production	Price per unit	Quantity	Total
3D Characters	3D Base Character Build	\$1,000 per Dragon	5	\$5,000
	Option A: AI-Assisted Animation	\$350 per Dragon	5	\$1,750
	Option B: Full 3D Character Animation	\$1,250 per Dragon	5	\$6,250
Video Animation	01. Video: Lava	\$750 per minute	60 secs	\$750
	02. Video: Unlocking Doors	\$750 per minute	60 secs	\$750
	03. Video: Underwater	\$750 per minute	60 secs	\$750
Total Option A				\$9,000
Total Option B				\$13,500

Transparent pricing
with no hidden
surprises.

unlimited revisions

Production timeline.

Proposed Timelines

Option A: AI-Assisted Animation

Option B: Full 3D Character Animation

**Ready for
MBS floor**

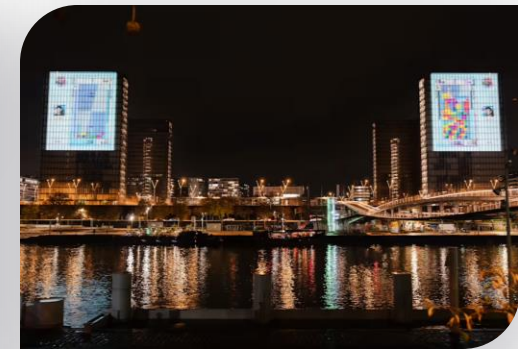

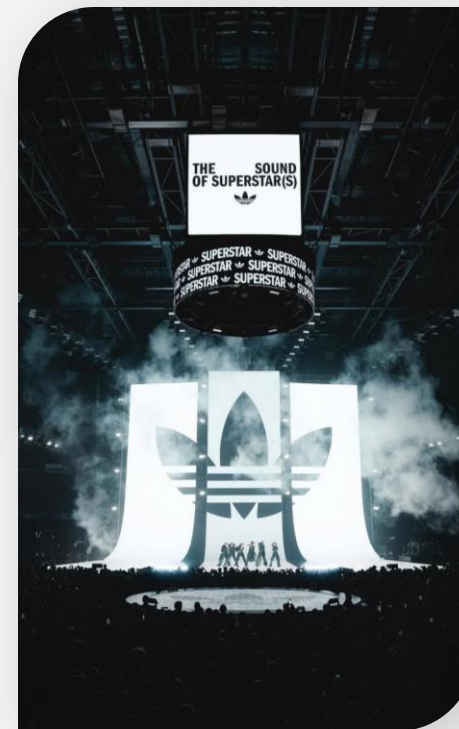

Timeline subject to timely approvals and consolidated feedback from all stakeholders.

Why us.

We specialize in **narrative-led content for atypical, large-scale video environments** – from architectural screens to live and branded installations.

Recent work includes the **Red Bull x Tetris Championships (Paris, 2025)**, the **TikTok Awards 2025** (220+ video assets), and custom large-format branding for internationally known brands such as **Sony, adidas, Crocs and more.**

Our work is led by a senior team with decades of combined experience across broadcast, film, and live production, and an internationally recognized, award-winning track record.

Your satisfaction only.

First project
satisfaction or
no invoice.

This isn't just a tagline.
It's the very ethos that we live by.
